  Pred. No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being pri
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           DB

"Novel tyrosine kinase identified by phosphotyrosine antibody
"screening of cDNA libraries.";

Mol. Cell. Biol. 8:5541-5544(1988).

-i- FUNCTION: RECEPTOR FOR ACIDIC AND BASIC FIBROBLAST GROWTH FACTORS.

-i- FUNCTION: RECEPTOR FOR ACIDIC AND BASIC FIBROBLAST GROWTH FACTORS.

POSSESSES A HIGHER AFFINITY FOR ADDICTHAN FOR BASIC FGF'S.

-i- SUBCELLULAR LOCATION: TYPE I MEMBRANE PROTEIN.

-i- ALTERNATIVE PRODUCTS: TWO FORMS OF THE PROTEIN (A LONG AND A SHORT FORM) ARE PRODUCED BY ALTERNATIVE SPLICING OF THE SAME
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 PROSITE;
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       use by non-profit institutions as rong to gage by and for commercial modified and this statement is not removed.
